Bachelor of Science in Computer Science · GPA: 3.71

August 2024 – May 2027

Orlando, FL

- **Relevant Coursework:** Processes of Object-Oriented Software, Security in Computing, Database Systems, Computer Science I & II, Data Structures & Algorithms, Machine Learning, Artificial Intelligence.

Valencia College · *Associate in Arts · GPA: 4.0*

January 2022 – April 2024

University Mohammed First · *Associate's Degree in Applied Mathematics*

September 2016 – June 2019

Pigier School · *Technician Diploma in Software Development*

September 2012 – June 2014

CERTIFICATIONS

Mendix Rapid Developer Certification · *Mendix / Siemens Low-Code Platform*

Data Analysis & Visualization in Python · *DataCamp (Pandas, Seaborn, Matplotlib, Data Cleaning & EDA)*

PROJECTS

ZaioTV Mobile App, Custom Theme & WordPress Ecosystem

Tech Stack: Kotlin, Android SDK, PHP, MySQL, WordPress Theme & Plugin

- Developed a native Android news application featuring breaking news alerts, push notifications, and category feeds.
- Designed a custom responsive WordPress theme and an automated PHP plugin to manage 24-hour pharmacy shift rosters.

Course Compass — Academic Planning Platform

Tech Stack: JavaScript, Node.js, HTML/CSS, REST APIs

- Created a web application to help students calculate workload estimations and build academic course schedules.
- Built REST API endpoints and integrated third-party Canvas LMS APIs for course data retrieval.
- Implemented user registration, login, and secure user authentication.

Arctic Atlas — Contact Management Web App & API

Tech Stack: PHP, MySQL, JavaScript, HTML/CSS

- Developed a web application with custom PHP REST API endpoints for user authentication and full contact CRUD operations.
- Designed a normalized MySQL relational database schema with foreign key constraints for data integrity.

WORK EXPERIENCE

Amazon Warehouse Associate

Amazon Warehouse

June 2021 – September 2025

Orlando, FL

- Efficiently stowed incoming inventory and packed packages according to quality and shipping standards.
- Consistently met productivity targets while following safety protocols in a fast-paced team environment.

IT Technician

Noitcom

June 2014 – April 2017

Nador, Morocco

- Diagnosed and repaired computer hardware, operating system, and network connectivity issues for clients.
- Installed and configured desktop systems, local networks, and CCTV camera setups.
- Handled client support tickets, providing direct technical troubleshooting and customer service.
